

**Speaker Biography**  
**Michelle Hladunewich**

Dr. Hladunewich completed her Doctor of Medicine at the University of Alberta, her internal medicine training at the University of Toronto and then proceeded to complete her Critical Care and Nephrology Fellowships at Stanford University Medical Center.

In addition to her research training in glomerular physiology, she completed a Master's of Science in Clinical Investigation at Stanford University.

Dr. Hladunewich joined the University of Toronto as an Assistant Professor of Medicine in 2003, and was promoted to Associate Professor in 2013. She is the Clinical Trials Director at the Toronto Glomerulonephritis Clinic and Registry, the Co-Chair of the recruitment committee for two large glomerulonephritis consortiums, the Neptune Study and Cure GN. She is the medical lead for the Kidney Disease and Pregnancy Clinic (PreKid Clinic), and the Director of both the Divisions of Nephrology and Obstetric Medicine at Sunnybrook Health Sciences Centre. Her research program includes studies in glomerular-based disease as well as pregnancy related kidney disease.

Dr. Hladunewich is currently the Ontario Renal Network Medical Lead for Glomerulonephritis and Specialty Clinics.
